

KEWEENAW LAND ADDS 14,480 ACRES ACROSS FOUR COUNTIES IN UPPER MICHIGAN THROUGH MINERAL MANAGEMENT AGREEMENT

IRONWOOD, Mich., June 11, 2025 (OTC MARKETS) – Keweenaw Land Association, Limited (OTC US: KEWL) announced today it has entered into a 10-year mineral management agreement with two 5-year extensions with a local family trust who is also a Keweenaw shareholder, effective May 30, 2025. The agreement grants Keweenaw rights to manage 14,480 acres of mineral rights across Baraga, Dickinson, Iron, and Gogebic Counties in Michigan's Upper Peninsula. With this addition, Keweenaw increases its owned and managed acreage in Upper Michigan to 1,075,334 acres, or 10.1% of the minerals in the U.P. further solidifying its position as a key player in the region's mineral landscape.

The expanded portfolio enhances Keweenaw's ability to attract exploration companies seeking critical and strategic mineral opportunities in a tier one jurisdiction while increasing the mineral exposure for our new mineral partner. In exchange for its management services, Keweenaw will share in a material percentage of any mineral business that includes the new lands under management in lieu of any annual fee.

"Exploration companies prefer large, contiguous land positions and demand title surety. Aggregating minerals under management representing a larger share of minerals in Michigan should increase our collective odds of success," said Tim Lynott, Keweenaw's president, "Additionally, adding scale efficiently should unlock value for our owners and our new partner in an asset light manner that could open the door for other partnership opportunities in the region.

Keweenaw's flagship asset is a lease and royalty agreement at the Copperwood Project with Highland Copper Company, an advanced stage copper development project. Beyond Copperwood, Keweenaw is actively involved in discussions relating to critical and strategic minerals including copper, nickel, gold, platinum, palladium, uranium, hydrogen, helium, iron ore, limestone, and other aggregates. In parallel, Keweenaw has secured forward-looking business agreements in solar energy, mineral recycling, acquisitions, trades, and title rights, and most recently a hydrogen option. If you are a mineral rights holder or have a specific interest in exploring mineral partnership or development opportunities, we invite you to connect with us at the contact information below.
